					left blank will count for “Terminated – other reason”.	
			Service Amount	C23b, C24b	Decides which service amount codes to include in the “Special Services” counts	
			Adult Occupation	C33, C34, C37, C38	Determines how DE classifies the employment status of the parents.	
			Adult Education	C39	Determines whether an education level code should count towards a, b, c, or d of question C43.	

Section A. – Filter Criteria that affect this entire section:

Site & Classroom counts: Sites and classrooms will only be included in the PIR counts if there is at least one child with a funding record matching a funding specified on the PIR setup.

Participants: Children that were enrolled at any time during the PIR begin and end dates will be counted only once towards any question on the PIR. Additionally, participants will only be included if their funding matches a funding picked on the PIR setup. You can update the funding for a participant via the combo box at the bottom left of the child’s application, or by using the Enrollment Utility to modify the funding for a group of participants.

Pregnant Women: Pregnant Women will be included in the PIR if they meet the criteria for participants above, and their Due Date or Delivery date is between the enrollment year begin date and nine months after the enrollment year end dates. Questions that state “Children Only” will exclude pregnant women from the count.

PIR Question #	Question Description	CPDE Module	Description of ChildPlus DE Calculation	ChildPlus DE Audit Report to Use
<p>Section C – Filter Criteria that will affect this entire section:</p> <p>Participants: Children that were enrolled at any time during the enrollment year begin and end dates will be counted only once towards any question on the PIR. Additionally, participants will only be included if their funding matches a funding picked on the PIR setup. You can update the funding for a participant via the combo box at the bottom left of the child’s enrollment record, or by using the Enrollment Utility to modify the funding for a group of participants.</p> <p>Pregnant Women: Pregnant Women will be included in the PIR if they meet the criteria for participants above, and their Due Date or Delivery Date is between the enrollment year begin date and within nine months following the enrollment year end date. Questions that state “Children Only” will exclude pregnant women from the count.</p> <p>Families: Families will be included only once on the PIR if they have at least one child enrolled under a funding selected on the PIR setup. Children in dual-custody situations will have both families show up on the PIR.</p>
